Contents
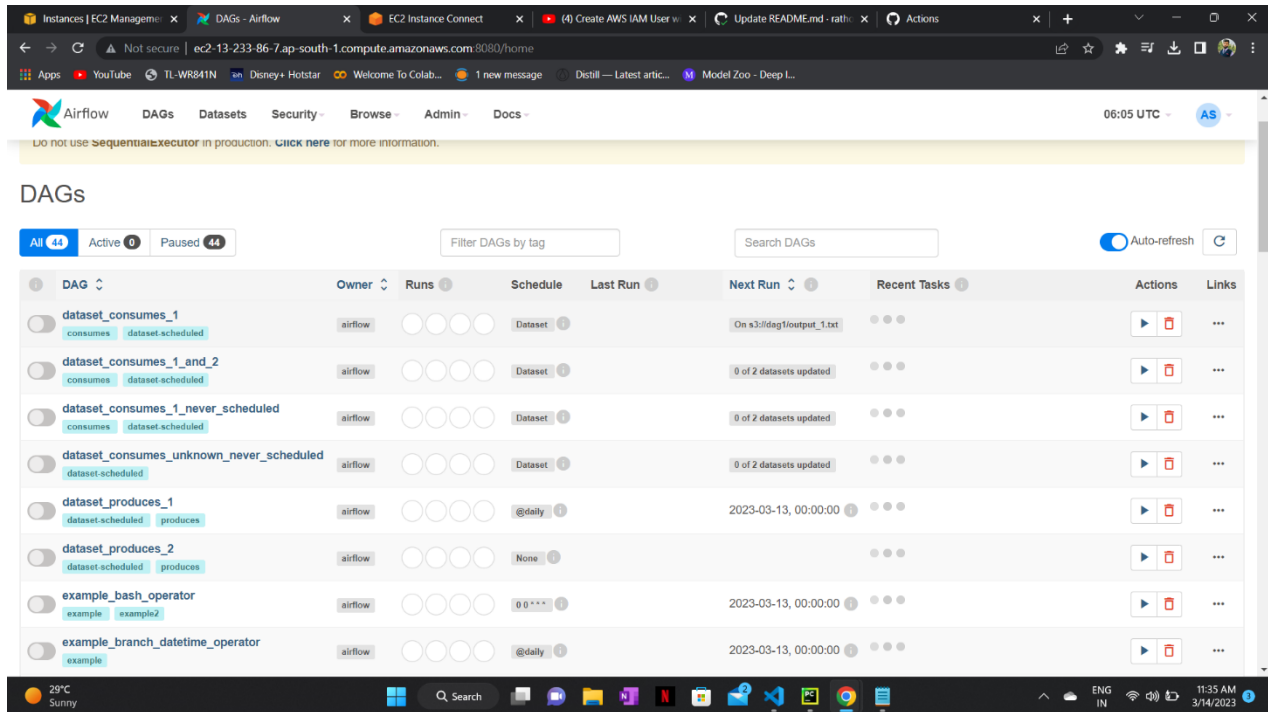

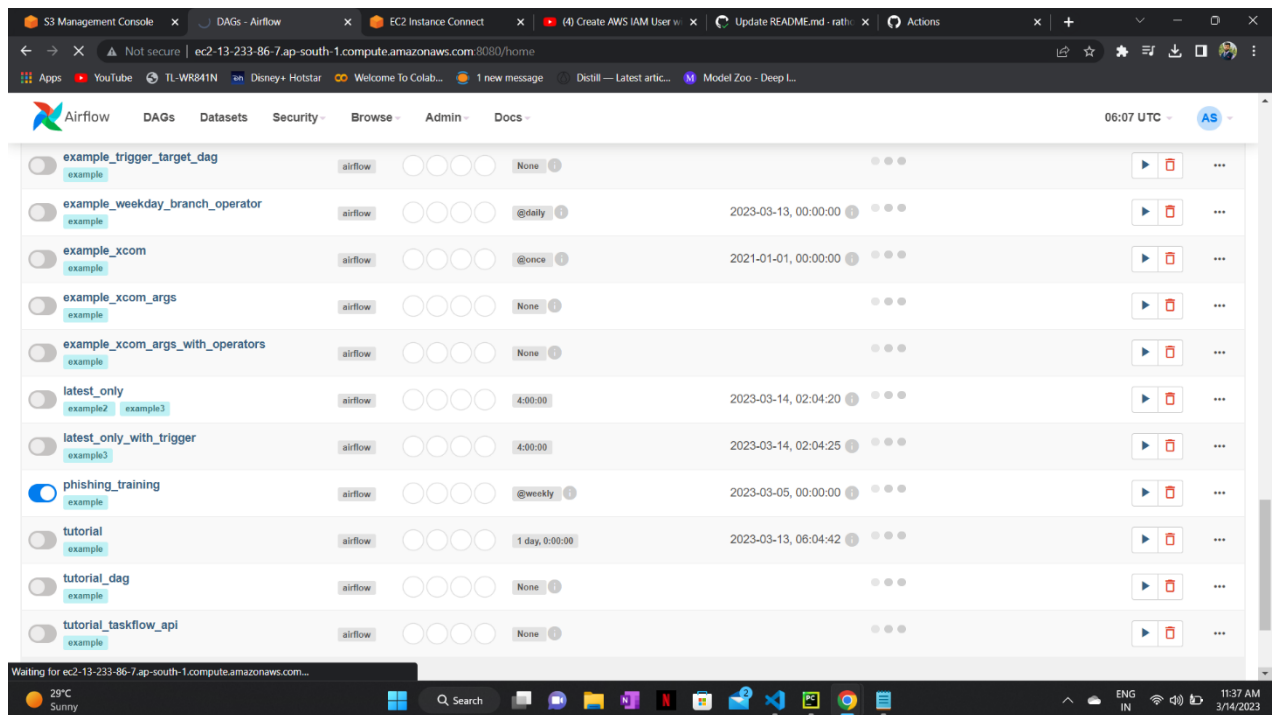

1. Abstract

The recent international things had a large impact on the aviation sector because of several reasons. This documentation is all about the user interface wireframe, here the home page of our Phishing Domain Detection project is explained.

2. Airflow Interface

Our web page is one single interface where both input from the user and the prediction is displayed.

3. Trigger Pipeline

Training Pipeline can be Triggered in Airflow and Training can be Scheduled and monitored in Apache Airflow as well
